

## RADON IN VIRGINIA

### Legend

- Zone 1 Highest Potential for Radon
- Zone 2 Moderate Potential for Radon
- Zone 3 Low Potential for Radon

# Have You Tested Your Home for Radon?

You cannot see, smell or taste radon, but it may be a problem in your home.

All types of houses can have radon problems-old homes, new homes, drafty homes, insulated homes, homes with basements and homes without basements.

The LENOWISCO Health District invites you to learn more about the health effects of Radon, how to test your home, and receive a free test.

- **March 29:** Pennington Gap Public Library 3:30 p.m.
- **March 29:** Wise County Health Department Conference Room 3:00 p.m.
- **March 31:** Scott County Community Room 5:30 p.m.

For more information, call Sydney Manis, Local Health Emergency Coordinator at 276-386-8019 or Brad Stallard, Environmental Health Manager at 276-328-1933.
