

**REQUEST FOR PROPOSALS  
PAVING, SEALING AND MARKING PARKING LOT  
WISE COUNTY COURTHOUSE**

The Wise County Board of Supervisors is seeking proposals from contractors for the construction of parking area improvements located at the rear of the Wise County Courthouse. The scope of construction will include expansion of the existing paved parking area into an adjacent area recently rough graded, as shown on plans and technical specifications. Areas around existing drop inlets and manholes at which deterioration of the pavement is evident should be patched. Straight-line saw cuts will be required, where necessary, to ensure an appropriate blend into the existing paved parking area. Construction will also include asphalt sealing and pavement marking of the entire Courthouse parking area, as indicated on plans and technical specifications. The bidder will be responsible for field verifying the required rough-graded area for finish grading, preparation, and asphalt paving, as well as the entire area for sealing and marking.

Preparation and paving of the new parking area can be accomplished within a normal working schedule. However, in order to maintain as near normal business conditions and minimize disruptions and inconveniences for patrons of the Courthouse, all work relating to the sealing and marking should be planned, and coordinated with Courthouse maintenance personnel, for a period beginning no earlier than a Friday morning, at which time the area will be cleared of vehicles; and ending no later than a Sunday evening, at which time the area can again be opened to the public (except in the case of Memorial Day week-end, at which time ending would be no later than Monday evening). Time is of the essence for the completion of this project.

Bids should be submitted to Shannon Scott, County Administrator by 4:00 PM on May 17, 2013.

Questions should be addressed to Shannon Scott, County Administrator, at 276-328-2321.
