

**REQUEST FOR QUALIFICATIONS FOR
GENERAL SOLID WASTE ENGINEERING SERVICES
WISE COUNTY BOARD OF SUPERVISORS**

Pursuant to the Virginia Public Procurement Act, the Wise County Board of Supervisors invites proposals from qualified firms/individuals for general professional engineering services required to support a variety of solid waste infrastructure projects. Wise County proposes to award an annual contract with four optional annual renewals for various project management, engineering (civil, geotechnical, environmental, mechanical and electrical), surveying, monitoring/testing and other related services at the Blackwood Landfill. Services are anticipated to include general consulting and oversight, project design, permitting, representation with regulatory agencies. The firm or individual who is selected will be responsible for procuring routine monitoring/testing as part of their contract with Wise County.

Submittals should include, but are not limited to, the following information:

1. Experience and qualification of individuals available for assignment to the project.
2. Experience with Southwest Virginia Landfills.
3. Relevant experience in the following areas:
 - Project design
 - Permitting process
 - Routine solid waste operations analysis including compaction verification
 - Financial evaluations of various options of solid waste disposal
 - DEQ regulatory compliance
 - Solid waste permitting
 - Groundwater monitoring and analysis
 - Stormwater monitoring and analysis
 - Leachate Management system analysis
 - Leachate sampling/analytical
 - Landfill gas management system analysis
 - Financial assurance analysis
 - Closure/Post closure care

All proposals must be delivered to:

Mail To:

P.O. Box 570
Wise, VA 24293

Overnight To:

206 E. Main Street
Wise, VA 24293

Any submittals received after the deadline will not be considered. Any cost associated with the submittal shall be the responsibility of the Firm(s) or individuals submitting.
